

ROCKAWAY **LANDSCAPE**

ROCK RAKES

Rockaway Landscape Rakes pull out 2" to 8" rocks from the soil every time.

Their teeth are made from hardened Hardox Steel and the rotor shaft is 3/8" steel.

Rockaway rock rakes are rugged and built to work as hard as you do.

The low-maintenance design means you won't waste your time constantly repairing and maintaining your attachments.

DURABLE.
RUGGED.
RELIABLE.
